Der Arbeitgeber

The European practice for our customer is well established across Transformation, Benchmarking and Advisory. (Advisory is a multi-year programme-based market offering providing intellectual property and coaching to a wide client base).

We are now building a Procurement Transformation capability in our European practice. Working with C-suite executives and Procurement leadership teams, we design and implement change/ transformation programs to deliver World-Class performance.

As well as functional design and change, we have enviable technology capability. Our North American Coupa team has more than 80 certified consultants; we completed our first implementation over 10 years ago and became one of their first Premier partners. We have completed some of the solution's most complex and largest global implementations; we co-designed the Coupa Inventory Module and are still the only partner to successfully implement a GAAP compliant Coupa Inventory solution.
